

ELECTRICITY INSTRUCTIONS

You have purchased electricity for your booth, Enclosed is a tag to attach to your drop cord identifying that you can plug in to our power source.

A red tag shows that you have purchased 20+ Amp Power

A yellow tag shows that you have purchased 20 Amp Power

Power sources will be in the vicinity of your booth but may be some distance from your exhibit space. It is recommended that you bring a 50' drop cord to ensure that you can plug in.

If you purchased 20+ Amp/220 Volt electricity, please refer to this diagram for your plug.

Only those vendors who purchased electricity in advance and who have an electrical tag affixed to their power cord will be allowed to connect to the festival's power sources.

If you need to purchase additional electricity, have any questions or need additional information, please contact the Information Booth at the corner of Mineola & Riverview.

Thank you
